GATES WILL BE OPEN

The Court of Appeals and the World's Fair Question.

Decision Given To-Day that the People May See the Big Show on Sundays.

[SPECIAL TO THE REPUBLICAN.]

CHICAGO, June 17.—In the United States Appellate court to-day the court rendered a unanimous decision that the World's Fair Gates may be kept open on Sundays.

Chief Justice Fuller of Washington U. S. supreme court, and U. S. district court judges Allen of Springfield, and Bunn of Madison, Wis., submitted the decision. The judges heard the statements and arguments on Thursday and Friday, and last evening adjourned until 11 o'clock to-day to settle the case.

COLLISION IN A TUNNEL.

[SPECIAL TO THE REPUBLICAN.]

CHICAGO, June 17.—By a frightful collision this morning between two freight trains in the Broad Tree Tunnel, West Virginia, Quinn and Gearing, engineers, Hern and Fisher, firemen, and Metz, brakeman, were killed. The tunnel is plugged up by the wrecked cars.

THE PARADE ABANDONED.

The City Superintendents and the Field Day Executive Committee Confer.

It was decided last evening at a conference of the field day committeee to abandon the proposed parade. Such a large attendance is expected that it will be impracticable to get the people from any one point to Riverside.

Superintendents can now instruct the members of their schools to go and come as they please, or decide to go to the park as a school.

Superintendents can get tickets of W. L. Shellabarger at the mill office. The badges can be secured of the county secretary, Geo. T. Tucker, at this office.

The tents to be occupied will be numbered as follows: Townships—Mt. Zion 1, Wheatland 2, Pleasant View 3, Blue Mound 4, Long Creek 5, Maroa 6, Friends Creek 7, Harristown 8, Illini 9, Whitmore 10, Macon 11, Cerro Gordo 12, Oakley 13, Niantic 14, Hickory Point 15. City Schools—First M. E. 18, Baptist 19, Presbyterian 20, Grace M. E. 21, Christian 22, United Brethren 23, Church of God 24, Congregational 25, Colored 26, English Lutheran 27, German M. E. 38.

The meeting adjourned subject to call of the executive committee.

In Regard to Passes.

The following circular has been issued from the office of the general manager of the Wabash railroad:

Taking effect June 15th, employes' and complimentary trip passes will be stamped, "Not good on night express trains Nos. 2 and 3, or day limited trains Nos. 4 and 5, St. Louis and Chicago line," and gatemen and trainmen will not permit persons holding passes so stamped to secure passage on these trains. * * *

Hereafter, requests for trip passes for account of employes or other railroads will not be honored unless made by the general manager or other executive officer of the road by which they may be honored.

Death of Delmar Hunter.

Delmar Hunter, brother of George Hunter of this city, was killed near Fort Worth, Texas, yesterday, by a kick from a horse. The same telegram, which was received by George Hunter this morning announcing his death also stated that the funeral would take place to-day. From this it is inferred that the body is badly cut and bruised. Mr. H. and his father were farming near Fort Worth.

Date Changed.

Bishop C. H. Fowler, who is to hold the 70th session of the Illinois Annual Conference in this city, has changed the date of the session from Sept. 27 to Sept. 20—one week earlier, so that the members of the church and the citizens of Clinton, who hope to enjoy this rare treat for one week, will need to keep the date in mind in making their plans for summer outings.—*Clinton Register.*

An Opinion.

"Everybody goes by way of the Wabash," said a prominent business man today, "It is the best route to Chicago. That road runs through trains day and night and the accommodations are first class. This road also runs chair cars all the way from St. Louis to Chicago, and does not not transfer you to old time coaches before you reach your destination."

AT a meeting of the Decatur Christian Endeavor Union last evening D. A. Strader was chosen as a delegate to the International Christian Endeavor convention at Montreal, in session from July 5th to 9th.

BURGLARS ON PRAIRIE AVENUE.

They Enter the B. Stine Residence and Escape with Booty.

When the occupants of the B. Stine residence on Prairie avenue awoke this morning they made the discovery that burglars had not only been prowling about the house, but had effected an entrance during the night. The domestic had failed to bolt the kitchen door, and the robbers had no trouble in getting into the house.

Investigation revealed the fact that $12 in cash and an old silver watch had been taken from M. Heilbrun's room. The thieves had overlooked a fine gold watch that was in the dresser. B. Stine's costly gold watch was taken from his room.

There are no other articles missing. None of the occupants of the house heard any noise in the rooms. It was easy sailing for the robbers.

The burglary has been reported to Marshal Mason who will endeavor to recover the stolen watches, and possibly the thieves may be caught.

TOOK A RECESS.

Judge Vail Will Open Court Again Wednesday Morning.

This morning Judge Vail entered the following orders upon the docket in the circuit court:

CHANCERY DOCKET.

Josiah Abbott et al. vs. William Bradley et al.; chancery. Referred to master.

Jacob F. Ebert, executor, &c., vs. Mattie L. Hovey; chancery. Leave to C. L. Griswold to file intervening petition.

Mattes & Sons vs. Frederick Norman et al.; mechanics' lien. Decree pro confesso against defendants not answering and referred to master.

A RECESS.

The judge is waiting for the grand jury which is still investigating the lynching case to report. The jury adjourned last evening until Monday. They will probably be ready to submit a report to the court on Wednesday or Thursday. Judge Vail took a recess this morning until Wednesday at 9 a. m.

Stock May Soon Be Withdrawn.

The members of the Volcanic Copper Mining and Smelting Company, Arizona, residing here, say that "the company now has 15 or 20 teams and 25 or 30 men at work at the mines, and by the 27th of the month will have 45 teams and 80 men delivering ore at the smelters." In a very short time they will have received returns from the smelters determining beyond doubt the product per ton of the ore. Should the ore yield as rich as the assays indicate, the low grade will yield—on the basis of smelting 100 tons daily—$700,000 net a year, and the high grade on the same basis, between five and six million dollars a year. Should these results be developed when smelting begins, as they most certainly will be, the company could not afford to continue the sale of stock, which good business men, now, upon investigation, are buying largely. Parties who think of buying this stock should go to Hunter Bros.' office on Merchant street, which is open from 8 a. m. till 10 p. m., where they can examine the ore, and the letters and telegrams from the manager, and also the certificates of assays made, and buy at once.

Will Go to California.

C. O. Judson, who has been in the employ of the Illinois Central railroad for the past thirty-five years, the last five years the head of the ticket office, was granted an indefinite leave of absence yesterday, and the accounts of the office were checked up by Auditor S. B. Buts of Chicago, representing the Central, John Theobold, Terre Haute, for the Vandalia, and J. M. Goodloe of Evansville, for the P., D. & E. Mr. Judson will be succeeded by W. L. Smith, who has been assistant under Mr. Judson. Mr. Smith has been succeeded by Will Pluck. Mr. Judson, accompanied by his wife, will leave within a few days for California for the benefit of his health.

Examination of Teachers.

J. N. Donahey, county superintendent of schools, is to-day conducting an examination of city and country teachers who are being examined as to their qualifications for second grade certificates. Questions will be answered in writing in the following branches: Reading, writing, spelling, arithmetic, grammar, geography, U. S. history, physiology and pedagogy. The examination for first grade certificates will be held Monday, when question in zoology, botany philosophy will be propounded in addition to those in the common branches. There were 60 teachers at the examination to-day.

DAILY REPUBLICAN.

R. E. HAMSHER. | W. F. CALHOUN.
HAMSHER & CALHOUN, Prop'rs
DECATUR, ILLINOIS.

Entered at the Post Office at Decatur, Illinois as second class mail matter.

SATURDAY EVE., JUNE 17, 1899.

If you want to know what Democratic promises are worth, read the Democratic state platform and then read what the Democratic legislature failed to do.

THE *Democratic compulsory* education bill is not worth the room it will take on the statutes of the state. It is probably the most shameful travesty on law that ever disgraced the state of *Illinois*. It was not Representative Stringer's fault that the law is not what it ought to be. The fault is chargeable to the Democratic caucus.

GOV ALTGELD is still apologizing for having called out the militia to restore order at Lemont. In a message to the legislature he says the sheriffs of Will, DuPage and Cook counties lied to him, and thus deceived him, and are alone responsible for the calling out of the militia. Inasmuch as the presence of the militia stopped the further shedding of blood, it is hard to see why he protests so much.

THE Democratic paese of the state, and Candidate Altgeld, charged in the campaign that the management of the Joliet penitentiary was honeycombed with frand and irregularitis. Altgeld and the Democrats as soon as they came into power referred the whole matter to a committee of the senate for investigation. That committee has investigated that institution for five months, and a few days ago it reported unanimously that Ex-Warden McClaughrey's management was strictly honest and according to law, which report was adopted by the senate. It yesterday reported that the ex-commissioners were all right save that they had paid too much money for some contract. This report the Democratic senate refused to adopt, and thus ended in *gloriously a Democratic campaign falsehood.*

THE New York bankers, at a meeting this week, discussed a resolution which everyone present favored, asking the president to call congress together at once, as the only means of restoring confidence in the business and financial affairs of the country. They did not adopt the resolution, because they feared its object might be misconstrued, but the fact remains they were right. It is simply a piece of imbecility on the part of Mr. Cleveland not to call congress together at once and let it adopt whatever *policies it sees fit to adopt, and then* business sails can be trimmed to fit. The longer the people have to wait before they find out what congress is going to do, the worse it will be for business. Business shrinks from the present administration and is in mortal fear of it, and the quicker it shows its hand the quicker the people will know what they have to do.

ONE of our farmers brought his wool to town yesterday and in looking for a buyer telephoned a certain business house inquiring what they would give him for it. The reply came back, "14 cents." The farmer thrust his hands into his pockets and soliloquized as follows: "Well I'll be blowed! Didn't I hear Andy Hunter make a speech in Decatur last fall, and didn't he tell us how the Republicans were robbing the farmers and laboringmen and didn't he say that if Cleveland was elected we'd get 30 cents for our wool? I wanted that 30 cents, and didn't I vote for Cleveland to get it? Wasn't Cleveland elected and how is it I am offered only 14 cents instead of 30 cents for my clip? What was the matter with Andy Hunter? What is the matter with Cleveland? What is the matter with me?" And he went off sorrowing and sold his wool for 14 cents. The trouble with Andy Hunter is that while he can appeal to the prejudices of men in a wigwam, in the heat of a campaign, he can't fix the price of wool that is to be paid for with some other fellow's money. The trouble with this farmer was that he did not realize that Andy Hunter was after an office, instead of the benefit of the people. The trouble with Cleveland is that while the financial interests of the country are going to "the dogs" at a rapid pace, in fear of the policies of the Democratic party, Cleveland don't know whether he is on foot or on horseback, and yet he is afraid to call the Democratic congress together for fear it will make things worse.

A Case of the Laws of Trade.

American Economist: For some time we have been running steamers from San Francisco to Australia. We did not pay them any subsidy, but they received some aid in Australia. These steamers built up a commerce which was worth about twenty million dollars to us. The other day a line to Australia was started, sailing from Vancouver, the western end of the Canadian Pacific, and calling at the Sandwich Islands. It is to have a subsidy of $125,000 per annum from the British government and will undoubtedly also receive the aid now given to the American line, and the American line, which cannot expect any aid from this administration, will as undoubtedly be driven off the ocean.

This is what the advocates of British commercial supremacy call allowing the laws of trade to prevail. Sometimes they call it the natural order of things. Under this arrangement our mails will go to Vancouver on their way to Australia, and our freight will follow the same course. In a little time we will lose a great part of our trade of $20,000,000, which is dependent on convenient transportation. We will also lose all chance of securing the Sandwich Islands. When all of this is lost our friends in sympathy with England will talk of the inexorable laws of trade and ascribe the loss to the effects of our tariff.

PRIMITIVE IRON WORKERS.

How the Ore is Smelted and the Metal Forged in Central Africa.

The Balubans, as the natives of the Muansanyomma district of Central Africa are styled, enjoy an excellent local reputation as iron workers. They find their crude material in the form of bog iron ore on the surface of the land. It rarely happens that digging to an appreciable depth is necessary. Their smelting furnaces, which are constructed of clay, are from six to ten feet high, from forty to sixty inches diameter at the base, and conical in shape. The ore is tipped into the furnace from above; the charcoal, on the other hand, is introduced into basin-like side openings, which also receive a continuous airblast; while the iron and slag are removed from the bottom of the furnace about every eight or twelve hours, according to the degree of heat obtained. The forge is a circular building some sixteen feet in diameter, with a pointed roof and open sides. At a distance it might be taken for a park bandstand. In the center of this hut is the fire, which is maintained in constant activity by means of a unique pair of bellows, which merit a special description. They consist of a block of wood, generally twenty inches long, hollowed out, and fitted with a funnel-head made of clay. At the lower end are two orifices, over which skins are stretched. Motion is imparted to the instrument by the action of two small rods. The hammer is of solid iron; the tongs are marvels of simplicity, to-wit, a bent palm branch. An iron wedge driven into a timber bole serves as an anvil. The recollections of the Balubans carry them back to the time when they wrought metals with stone tools. Some of the natives are comparatively artistic workers. Very fine axes, tastefully inlaid with copper, are produced. Strikes among these swarthy artificers, it should be noted, are of comparatively rare occurrence, probably owing to the fact that malcontents invariably have their heads lopped off and their skins placed on one side for patching, or, in case of need, entirely recovering the aforesaid curious bellows.—Iron.

Les Finances.

She—And are you sure you will like married life as well as you do your club?

He—Oh, yes.

She—And are you so awfully fond of your club?

He—Not very.—Life.

—Truth in Absence.—"Charlotte, my dear, how is it I find you weeping? Have you bad news from your husband?" "Oh! worse than that. Arthur writes me from Carlsbad that he would die from grief at being absent from me were it not that he gazes on my picture and covers it with a thousand kisses every day." "That is very nice of him; but surely you are not crying about that. Most women would give anything to have such a poetic and devoted husband." "Oh, yes, Arthur is very poetical; but you don't know. Just to try him, I put mother's photo into his traveling bag instead of my own, and the wretch has never found it out. Boo-hoo-hoo!"—Pick-Me-Up

ON THE OUTSIDE—that is the best place to keep the huge, old-fashioned pill. Just as soon as you get it *inside*, it begins to trouble you. What's the use of suffering with it, when you can get *more* help from Dr. Pierce's Pleasant Pellets?

These tiny, sugar-coated granules do you *permanent* good. They act mildly and naturally, and there's no reaction afterward. Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach, and bowels are prevented, relieved, and permanently cured.

They're the smallest, the easiest to take, and the *cheapest* — for they're *guaranteed* to give satisfaction or your money is returned. You pay only for the *good* you get. Nothing else urged by the dealer, though they may be better for him to sell, can be "just as good" for you to buy.

THE picnic season is here and the young man no longer cares whether he can dance or not. All he needs is muscle enough to push a swing.

La Grippe.

During the prevalence of the Grippe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of La Grippe, but in all Diseases of Throat, Chest and Lungs, and has cured cases of Asthma and Hay Fever of long standing. Try it and be convinced. It won't disappoint. Free Trial Bottles at King & Wood's Drug Store. fm

If You Do then You are Interested in Refrigerators.

Why You Should Buy a Gurney:

1st, Because it is positively the only refrigerator made that you can lift out the ice tank for cleaning.

2d, Because it is impossible to puncture the linings when chopping ice.

3d, Because you can keep it colder and thereby can keep fruit and meats longer than in any other refrigerator made.

4th, Because it is guaranteed to use less ice than boxes made on the ordinary plan.

THE PEOPLE ARE GLAD.

As the time goes on we discover that every day our trade increases and that the people seem glad to see the old stand of Ferriss & Lapham again opened up for business. The people know that the same corps of salesmen and same management now have the control of the Frank H. Cole store as formerly were in the Ferriss & Lapham store. It stands to reason that a man who owns his goods at 52½ cents on the dollar can sell goods cheaper than others can. We do sell cheaper and that is the reason why the people come to us. GONE HOME.

The Supervisors Finish the Work of the June Session.

The board of supervisors closed the June session of the county board yesterday afternoon and went home. They will meet again Monday, July 10th, to receive the report of the committee on equalization of taxes and to attend to other business.

The finance committee reported warrants to the amount of $93,512 86 for the months of March, April and May checked up and destroyed.

The committee on fees and salaries reported that they had examined the report of Sheriff P. Perl, submitted for the half year ending May 31, 1893. He had earned $1,802.93; received for services rendered, $576.20; for services previously reported, $63.85; total collections, $646.05. He has earned in insane and other cases in which the county is liable for the fees, $279.65. A warrant for $279.65 was ordered drawn in favor of the sheriff. The report was approved.

The same committee submitted a report concerning the office of the county clerk. Receipts for the half year were $4,476.52; expenditures, $2,309, leaving a balance in his hands of $2,167.52. The committee report was approved.

The books of J. N. Donahey, county superintendent of schools, were reported correct.

The report of Attorney W. C. Outten in the settlement of the Foster cases was approved.

The county clerk was ordered to draw an order for $2,000 to pay interest to N. W. Harris & Co. on court house bonds.

The claim of Dr. Heil for $10 for holding a post mortem examination was ordered paid.

LEMONS BEGIN TO RISE.

They are Now in Strong Demand —Where they Grow.

Lemons are in demand now, and the price has already begun to go up. A traveling salesman said yesterday it is easy to sell lemons when nothing else could be sold. The price has been raised 50 cents a box in the last week and the best now sell at $4.50. They are expected to go up at once to double that price, as they usually do so in hot weather. One firm has nearly six car loads of lemons on hand now. Two car loads came from Italy and the islands of the Mediterranean sea. They are usually the best, but some of the islands had frost in November and that damaged the crop slightly. The lemons are packed in November. Two more car loads now on hand came from Central America. Then there are some from Florida, islands in the Gulf of Mexico and other tropical lands.

Melody and Fun at Riverside.

From the realm of melody, into the land of fun, further into the kingdom of vaudeville. Our people can take this enjoyable trip this summer when Riverside Park inaugurates its summer season. Every evening during the "heated term" entertainments will be given at this place of recreation by the superb companies which play the Western Summer Circuit, in which our city is numbered. Staying at home on summer nights is far from pleasant when one has such a source of enjoyment as that furnished at Riverside Park. The managers, Messrs. Simmons & Jackson, are thorough artists in their line, and the companies which will present opera, comedy and vaudeville for our citizens approbation, will be first-class and the treatment given their patrons will be most courteous. Having the three parks—at Peoria, Quincy and Decatur—a company will stay one week in each city, returning every third, giving a different line of thespian art on each visit, with new repertoire and new faces on their return. The theatre will open for the season Monday night, when Attorney Hutchinson will deliver an address before the performance.

Rather Indignant.

The girls in the 1893 High School graduating class are quite proud of the few boys who are members. In last evening's account of the commencement exercises the REPUBLICAN stated that there were 24 girls and 5 boys in the class. Several of the young ladies took offence at this innocent statement, and one remarked: "Well, I think they might give us credit for six boys, anyway; there were so few of them." In credit to both the boys and girls, we will state that there were 23 girls and 6 boys, or a half-dozen boys in the class. In other words, one less than four times as many girls as there were boys. An example: multiply 6 boys by 4 you have 24 girls, then subtract one girl and you have 23 girls left, or the number that graduated. Then take 23 girls, add 1, and you have 24 girls; divide this by 4 and you have left 6 boys, or the number that graduated.

Voted it Down.

At a meeting of the members of the Decatur Club last night the propositions to increase the membership and also the dues to $20 per month, were almost unanimously voted down. Another meeting is called for next Friday evening, when a vote will be taken on the motion to increase the monthly dues to $16. This will undoubtedly be passed.

Useless.

It is useless to pay $1.50 for a wash boiler, when you can buy a good copper bottom one at our place for 65 and 75 cts.

A VETERAN'S TRIBUTE.

Uncle Philip Clark, of Clinton, Writes About David Martin.

A Decatur citizen this morning received a note from Uncle Philip Clark, a noted resident of Clinton, now in the 80th year of his age. He writes: "I have just heard of the death of my worthy and noble friend and partner in the lime business, David Martin. We burnt lime together in Sangamon county in 1842. I have been acquainted with him from 1834, when he was a boy. What a true man he was! I hope to meet him in our heavenly home." Uncle Phil was among the first to make an overland trip to California, previous to 1849, seeking gold. By an invention of his own placed on his wagon Mr. Clark measured the distance from Illinois to the California gold regions, and then he prepared and published "Clark's Guide to California," which was a useful work for all who went to the far west in later years. Mr. Clark is a veteran of the Black Hawk war, being orderly sargeant of Capt. A. Lincoln's company, and fought with Lincoln and Jeff Davis to wipe out the Indians in Northern Illinois.

Eureka College.

Wednesday, the thirty-third annual reunion of the Alumni association of Eureka college was held in the college tabernacle. The attendance of former graduates was quite large, and the program was very interesting. Addresses were made by J. H. Garrison, of St. Louis, Ella Sesss Stewart, Eureka, and N. S. Haines, of Chicago. Several pieces of music were greatly enjoyed. Wednesday evening at 8 o'clock a number of the alumni gathered at Burgess Memorial Hall, where a grand reception and banquet was held. Thursday morning the thirty-eighth annual commencement was held in the mission tabernacle. The graduating class this year consists of one lady and nine gentlemen, who are as as follows: Francis E. Pope, Duquoin, Ill.; Howard B. Boone, Chandlerville, Ill.; James P. Lichtenberger, Decatur, Ill.; Gus I. Briggs, Eureka, Ill.; Charles C. Maxwell, Lincoln, Ill.; Jesse P. McKnight, Eureka, Ill.; Willie S. Perry, Cornell, Ill.; Justin M. Sheppard, Lovington, Ill.; William N. Sniff, Watseka, Ill.; Frank E. Culp, Eureka, Ill. The program reads as follows:

Invocation, salutatory adoration—"The College Man in the World," J. E. Pope.
Oration—"Turning Points in Life," H. B. Boone.
Oration—"Pearls at Random Strung," J. P. Lichtenberger.
Oration—"An Honest Lawyer," C. C. Maxwell.
Oration—"Culture," J. P. McKnight.
Oration—"Aristocracy," Willie S. Perry.
Oration—"An Ideal Statesman," Justin M. Sheppard.
Oration—"The Enlargement of Life," W. M. Sniff.
Oration and Valedictory—"Evolution of Government," F. E. Culp.
Presentation of Diplomas.
Benediction.

Thursday evening the annual concert of the school of music was given. The commencement exercises of the week which has just closed have been of an unusually interesting nature. The performances all show careful thought and training, and have been a credit to the students and the school. The attendance from abroad was quite large, and all the meetings have been largely attended. Taking it all in all it has been one of the most interesting commencements ever held by the college.

A Clincher.

The word "clincher," a conclusive argument, arose from two great liars being matched against each other, in the latter part of the 17th century. "I drove a nail through the moon once," said the first." "Yes," said the other, "I remember the circumstance, and I went around to the back and clinched it." In any argument as to the relative merits of the clothing made by Ed. Darz & Son, a man only has to state that he wears this firm's clothing, and that is a clincher that will stand the test and establish for himself a reputation for good judgment.

—Theodore Watts, a close friend of Tennyson, rejoices that the latter's son, Hallam Tennyson, survives to write the poet's biography. He says: "There is but one man who is fully equipped for such an undertaking, and fortunately that is his own son—a man of great ability, of admirable critical acumen and of quite exceptional accomplishments. His son's filial affection was so precious to Lord Tennyson that, although the poet's powers remained undimmed to the last day of his life, I do not believe that we should have had all the splendid work of the last ten years without his affectionate and unwearied aid."

—"Sometimes," said a busy man whose cares weigh heavily upon him, "I think that I would like to be a drum major. Now there's a man who goes about his business in a strictly business way, as indeed every man must do who would succeed, but yet who seems to be wholly oblivious of the ordinary cares of life. He looks solemn, but his heart is light, I know; and it seems to me at times as though it would be a positive relief if I could drop my books and accounts, put on a bearskin hat, a claw-hammer coat and trousers with gold stripes, and march up Broadway at the head of a brass band."—N. To provide for the election of a board of three assessors in townships containing not less than 40,000 nor more than 100,000 inhabitants in counties under township organization at the general election of 1894. One member shall be elected each year, and the compensation shall be $1200 per annum.

Enabling the Cairo Short Line to elect its directors from the counties through which it operates.

Providing that building and loan associations shall report semi-annually to the state auditor the condition of their affairs, and that the auditor shall cause an examination annually of the books and records of such associations.

Amending the county farmer's insurance law, by providing that the insured may move to an adjoining county without imparing his insurance.

To extend the powers of boards of school inspectors elected under special acts. This bill applies only to some school districts in Will county.

During the session very few bills exclusive of appropriation bills and the foregoing bills were passed. The journals show that 781 bills were introduced in the house and 423 in the senate, a total of 1,204. Nearly 300 of these bills were on the order of second reading in the house when it adjourned. In all 1,100 bills were left on the calendars or in the pockets of committees.

The appropriations of this legislature, in spite of the Democratic claims in favor of retrenchment, reach an aggregate of a million and a quarter dollars greater than ever before.

LOGAN LETTER.
The REPUBLICAN is indebted to J. T. Roberts, dealer in grain, provisions and stocks, with correspondents in Chicago, New York, Minneapolis and St. Louis, for the following F. G. Logan & Co.'s market letter received over the Roberts private wire:

CHICAGO, Ill., June 17, 1893.

Wheat has ruled tame from the opening to the close; the latter was easier. Receipts this past week have been the highest for 12 months. The total shipments from Duluth and Chicago during the week are 2,037,000 in excess of receipts. The local crowd has been very bullish, but lack of outside support has caused a weakening of confidence in much of a profit on that side for the present.

Corn has been subjected to considerable enthusiastic buying on the advance and it was met by free relaxing enough, we think, to carry the price a little lower on this break.

Oats easier; operators are mixed between prospective large export demand and a large crop.

Provisions and hogs at present prices show a nice profit to the packer. Receipts Monday 30,000 and for the week 100,000.

THE GROWING CROPS.

Favorable Weather for the Tillers of the Soil.

The Illinois weather service in its weekly bulletin, issued this week, says that planting and replanting of corn has been vigorously pushed during the past week, and it expected, with favorable weather the coming week, the greater part of this work will be accomplished. The ground being generally in good condition, considerable progress has been made in cultivating the early corn. This crop has made good growth, is reported generally a good stand and of a healthy color. Many fields which have been damaged by worms, or where poor seed was used, will have to be replanted. Some fields of broom corn will also have to be re-sown owing to poor seed used. Wheat is reported as having improved somewhat since last week, and it is heading and filling well; in a few sections in the southern division some fields are turning yellow. Meadows and pastures are generally in excellent condition, but many pastures have been seriously injured by the army worms. In some of the southern counties haymaking is already begun. The reports indicate that the hay crop promises a large yield. Rye is heading, and will make an average crop. There has also been a decided improvement in gardens since date of last report. No material change has been reported in the condition of fruit. Stock is generally in fine condition.

D. Martin & Co.

The lime, cement and plaster business of D. Martin, deceased, will be continued under the name of D. Martin & Co. The firm will consist of Mrs. E. J. Strader, E. L. Card of Thanks.

We desire to thank those good people of your city, especially Very Rev. P. J. Mackin, the good Sisters of St. Francis Miss Graham and others, for kindness' shown our daughter Nellie and ourselves, while performing the painful task of conveying her dead body to her lonely home. 'Tis a source of consolation to know our poor child was surrounded by such true friends when her afflicted, heart-broken family were not at her side. We are thankful and grateful.

OF GENERAL INTEREST.

—"Left! left! left! left!" the drill master said to the raw recruit some thirty-odd years ago. "Put the left foot down at the heavy tap of the drum." And to this day when the band plays the old soldier catches step and keeps time with the music. He does not forget, he never can, the period he spent in the army.

—Capt. C. W. Adams, of West Addison, Vt., has raised quite a large portion of the timbers of the flagship Congress, of Gen. Benedict Arnold's fleet, which was sunk in Lake Champlain, in October, 1776. The timbers, of which there are about thirty feet of the after part of the keel and keelson, with a number of the ribs attached, are of oak, and perfectly sound.

—The clerk of a country church was once much exercised at the appearance of a strange old gentleman, who, when the sermon was about to begin, took a trumpet (in two parts) out of his pocket and began screwing them together. The clerk watched him till the process was completed, and then, going stealthfly up, whispered: "Yeow marn't play that here; do, I'll turn yo' out."

—Adjourning a prayer meeting in order that the brethren and sisters might witness a political torchlight parade was an actual occurrence in a New Jersey town recently. It was the regular prayer night and the meeting had convened, but when the band played and the great hosts were heard approaching the love of politics got the better of religion and the church was vacated in short order.

—In the presidential election of 1800 John Adams was the federalist candidate a second time, but he was defeated, and the federalist party never was able to elect another president. The federalists had secured the adoption of the federal constitution; they had made the national government strong, and they had begun the work of paying the national debt in full, and so making the credit of the government good.

—Only the few people famous for their idiosyncracies used tobacco to any extent for a century after the discovery of the new world, and it was not until 1650 that its use began to be common. Since then it has spread to every quarter of the earth and become to hundreds of thousands almost a necessity. The United States produces about half of the product of the world, which approximates very nearly one pound a year for every man, woman and child on this round globe of ours.

—A German newspaper lately contained this announcement: "I hereby declare, since the written notice of the 8th of August, 1892, and notwithstanding her refusal to accept the same, my betrothal with Fraulein Emma Ziegler is null and void.—Richard Jork." In the next number of the paper the following appeared: "I hereby declare that with respect to the advertisement of the annulment of my betrothal, written and proclaimed, with Herr Jork I do not agree. I am and still intend to remain his betrothed.—Emma Ziegler."

ADULTERATED WINE

is injurious, but nothing gives strength, and tones up the stomach like a pure old port wine. "Royal Ruby Port," so called for its royal taste and ruby color, is on account of its purity, age and strength, particularly adapted for invalids, convalescents and the aged. Sold only in bottles (never in bulk) while cheap wine is sold by the gallon and gives a larger profit to the seller, but less to the user. This wine is absolutely pure and has the age, without which no wine is fit to use. Be sure you get "Royal Ruby"; quart bottles $1, pints 60 cts. Sold by Dr. A. J. Stoner. Bottled by Royal Wine Co.

She occupies a cottage with an elderly woman as her sole companion.

A REMARKABLE Russian woman, Mme. de Novikoff, is about to sail from England for the United States. She has been famous for years in London as the center of Russian intrigue in the interest of the Czar, and as the friend of Mr. Gladstone, singular to say. The Week's Business and the Outlook, as Reported by R. G. Dun & Co.

NEW YORK, June 17.—R. G. Dun & Co.'s weekly review of trade, published this morning, says:

Concerted action by the banks of New York has changed the situation materially. More failures and a tremendous drain of money to the west had such effect that the banks were unanimous in deciding upon the issue of clearing-house certificates, but as a precautionary measure to prevent trouble rather than because the urgency of the trouble made it necessary. Increased accommodations for the business community are expected to result and doubtless will, unless speculation is stimulated to absorb all the increase in available resources through undue preference for marketable securities over other assets. The excitement at Chicago and Milwaukee has abated, but the weakness of banks at many western points continues, and the character of the failures reported indicates that widespread stringency is having a serious effect upon merchants and manufacturers who are in no way connected with speculative operations. A very sharp fall in foreign exchange removes the chance of gold export at present, but is due to foreign purchases of securities rather than to change in trade balances. Exports in two weeks of June, it is true, are but $2,700,000, or 15 per cent below last year, and imports show a small decrease instead of the enormous increase reported for months, but balances are still adverse and likely to be for some time. The decline in prices has led to some increase in the foreign demand for products, but has been followed during the past week by an advance of more than a cent in wheat, with sales of only 27,000,000 bushels; 2½ cents in corn, and three-sixteenths in cotton, with sales of 960,000 bales. Pork has fallen 5 cents and coffee has fallen a cent, but without any material increase in exports. Wheat receipts are still large, and accounts of the growing crops decidedly more favorable from the northwest, but conflicting as to cotton.

The output of pig iron declined 7,622 tons weekly in May, and is scarcely larger than a year ago. Stocks on hand declined 19,000 tons in the month, but further reductions of output is in progress. The market for iron and its products remains dull and unsatisfactory. Bar is especially weak, and southern pig much depressed for sale. Tin has advanced 65 cents per 100 pounds, but copper has sold at 10¾ cents for Lake, and lead at 3 70. The demand for boots and shoes is less than usual, but shipments are still about as large as a year ago. The market for wool is again much depressed: at Boston about a cent, and sales were only 21,000 pounds, against 217,000 the same week last year. The decrease at all principal markets for the year thus far is 11 per cent. About half the spring lines of woolens have been opened, and while the tone is healthy, the orders obtained are generally smaller than usual. No new business is reported in dress goods, but the great sale of 42,000 rolls of carpet was a noteworthy success though prices were rather lower than December. Cotton goods are quiet, though there is some talk of reduction in prices, but print cloths are steady. Reports from other cities nearly all show tight money and slow collections. The exceptions are as to money in a few southern cities like Charleston and Mobile, and at New Orleans money is in good demand, but fair supply while at Knoxville the demand is smaller. Collections are fair at Baltimore, Detroit and Nashville, average at Knoxville and good at Omaha, but low at other points reporting. The volume of business has been much affected by the prevailing stringency and caution about credits.

At Boston sellers are very conservative, the dry goods trade is moderate, though cotton mills are in good shape with small surplus stocks. Woolens are quiet; orders for shoes come in slowly, and large sales of leather are reported at low prices. Philadelphia reports quiet or dull trade in most lines, a slight increase in paints and glass, improved retail trade in dry goods and groceries and an expected advance in coal July 1. Retail trade at Baltimore is quite fair, but wholesale trade quiet. Iron and its products are weaker at Pittsburgh, and a strike is expected, the workers demanding last year's wages. Trade at Cleveland is fairly good and at Cincinnati quiet, but fair inemachinery and foundry work. At Detroit trade is quiet and credits closely scanned, and at Indianapolis there is a better feeling. Chicago reports an easier financial situation, but western demands urgent; collections very slow; speculation limited in volume; building 5 per cent. smaller than last year; wholesale trade fairly satisfactory, and retail trade improved. Receipts of nearly all products are smaller than a year ago. Milwaukee reports confidence slowly returning, bankers assisting the interior and jobbers very cautious. At St. Paul excellent crop prospects make a more hopeful feeling, and at Omaha trade is good, at Kansas City fair, considering the state of finances, at St. Joseph fair with good fall orders for dry goods. At St. Louis trade is beyond anticipations and not affected by the stringency. At all southern points trade is slow or quiet, though at Atlanta and Mobile a satisfactory trade is reported. The market for stocks has been stronger during the week, through the advance has averaged less than half a dollar per share and the demand for money has advanced notes on call quite sharply.

The failures for the week number 313 in the United States, against 153 for the same week last year, and 34 in Canada, against 26 last year

AN UNGRATEFUL SON

Saved from the Gallows by His Father, He Elopes with the Latters Second Wife.

JEFFERSONVILLE, Ind., June 17.—Thomas Gilbert, 40 years of age, his second wife, aged 33, and his son Weston Gilbert, 22 years of age, are the actors in an unusual domestic drama. Weston Gilbert, the son, has eloped with his stepmother, the latter taking with her six children by a former husband. The senior Gilbert now learns that his wife and son have been preparing for the trip by robbing him of his pension money, amounting to $30 per month together with other valuables. Gilbert further stated that his son some years ago murdered a man in Nashville, Tenn., and was sentenced to hang. With his earning, the father, with the assistance of an attorney, had young Gilbert's sentence commuted to life imprisonment. Later Mr. Gilbert succeeded in getting the warden of the Tennessee penitentiary, together with other influential citizens of Nashville, interested in his son's behalf and secured his pardon. Gilbert, some sixteen years ago, married his present wife in Louisville, and for the past twenty-five years has resided in Falls City. It is not definitely known where Gilbert's truant wife and son have gone, but an impression is out that they are in St. Louis.

The Troops Arrive and Take Possession of Leech Lake Agency.

PARK RAPIDS, Minn., June 17.—Information reaches here that Co. "D," third infantry United States army, reached Leech Lake yesterday afternoon, and is now in full possession of the agency. Dr. Walker had been in imminent danger for the past twenty-four hours because the Indians were drinking and had threatened to burn the agency overseer's house. About all of the recalcitrant reds have fled to the north, and threaten to unite with the Chippewas and make serious trouble for the whites along the edge of that reservation. All was reported quiet at the agency last night, but the troops will probably remain several days awaiting developments.

A portion of the command may move to the southward to quell another Indian trouble. Farmers on section one, town of Hamden, Becker county, have made complaint that Sioux Indians camped near the White River reservation have been committing depredations and disturbing the peace. A warrant was made out as provided by statute and the sheriff's posse has just gone up to drive them out of the county. The Indians have been dancing for several days and a lively time is anticipated.

In the Balance.

CHICAGO, June 16.—At the close of Mr. Walker's argument in the Sunday-closing case to-day the judges held a short consultation and Chief Justice Fuller announced that court was adjourned until 11 o'clock to-morrow. As the World's fair case is the only business before the court, it is confidently expected that a decision will be rendered at that hour.

AT THE WORLD'S FAIR

Massachusetts Day, the Anniversary of Bunker Hill.

RECEPTION TO MISS CLARA BARTON.

Musical—The Children's Building—The Cheese Tests Completed—Reception to the Daughters of the American Revolution.

WORLD'S FAIR GROUNDS, CHICAGO, June 17.—The governor of Massachusetts has enjoyed so far the exclusive honor of being serenaded by one of the exposition bands within the gates of Jackson park. Gov. Russell was the guest of Executive Commissioner Hovey at the Massachusetts building Thursday night, and at 8 o'clock yesterday morning, while breakfasting, the Iowa state band of musicians from Des Moines left their own building on the edge of the lake near by, and stationed themselves in front of the Bay State building, whose young and popular governor was entertained with various melodies for which he returned thanks. Then he left the White city for Chicago.

The sons and daughters of Massachusetts now here permanently or temporarily, all the exposition officials, foreign and state commissioners and other invited guests will unite in attending an elaborate reception to be given Gov. Russell and his staff this afternoon. It will be Massachusetts day, being the anniversary of Bunker Hill, but the British commissioners are not expected to absent themselves on that account. There will be no speeches, but a genuine New England reception.

To-night the White City will be ablaze with pyrotechnics, the contribution of the Massachusetts committee to the fair as an evidence of the Bay state's good will towards and interest in the undertaking.

Miss Clara Barton, of Washington, the famous president of the National Red Cross society, was tendered a reception in the Iowa building this morning. Dr. J. B. Hubbell, general field agent of the Red Cross, who has returned from distributing American relief in Russia, presented Miss Barton to hundreds of visitors. B. F. Tillinghast, of Davenport, Ia., who was secretary of the Iowa relief committee which sent a ship-load to Russian peasants, and Jos. Gardner, of Bedford, Ind., who has given 800 acres of neutral ground near that city to the Red Cross, were also present.

A creditable performance of Bach's "Passion," most difficult to sing, was given by the Chicago Apollo club of 600 voices and the exposition orchestra, directed by Theodore Thomas, in Festival hall yesterday afternoon, over 3,000 people being present.

The Children's building, which was opened last week, is doing a thriving business in its nursery department, and the gymnasium on the first floor proves a strong attraction. Classes in physical culture, which are added to it daily, are being formed, and are drilled every morning by Prof. Hartung, while the kindergarten is filling up. In the nursery on the second floor from fifteen to twenty babies are daily taken care of. A mother brings her little one to this place in the morning, and after having the baby checked to avoid mistakes, and depositing twenty-five cents, she spends the day in seeing the fair. The children play in a glass-roofed nursery and have the best of attention from trained nurses during the mother's absence, the place being conducted on thoroughly scientific principles.

Next week will be notably musical. Representative choral singers from many states will be present and works of the greatest importance will be given. On Tuesday the St. Paul and Minneapolis Choral association of 250 voices will give a concert in Festival hall. Mr. S. A. Baldwin will direct. On Wednesday, Thursday and Friday the first section of representative choral societies from the western states, numbering 1,500, will give concerts. For these occasions the exposition orchestra will be increased to 200 and the great pipe organ will probably be heard for the first time.

The cheese tests, which began several weeks ago in the Dairy building, were completed yesterday by John H. Hodgson, of New York, and A. F. Macklaren, of Windsor, Ont. The awards will not be made for some time, but it is unofficially reported that Canada will be given about thirty first prizes, New York following.

The board of lady managers received the Daughters of the American Revolution at the Woman's building last evening. The reception was entirely informal.

The blarney stone arrived at Lady Aberdeen's Irish village yesterday morning. It was placed in position, and will be unveiled to-day with appropriate ceremonies, Mayor Harrison, it is understood, making the principal address.

The Russian section in Manufactures building will be opened to-day. There will be a few short speeches, and a reception from 3 until 5 o'clock.

A QUEER VERDICT.

"Censure" Recommended for Shooting Defenseless Men Without Cause or Warrant of Law.

CHICAGO, June 17.—The inquest begun last week at Lemont on the body of Gregore Kiska, the striker who was shot and killed at Smith's camp on June 9, was concluded yesterday, when the jury returned a verdict to the effect that the victim came to his death from shock and hemorrhage caused by a gunshot wound inflicted by an unknown man, and recommending that the unknown man be apprehended and that Contractors Locker, Jackson and Mather be censured for shooting defenseless men without cause or warrant of law.

THE NEWS OF THE DAY

Joseph Jefferson, the Actor, Taken Suddenly Ill.

CONTRACTOR DENT LOSING HIS MIND.

A Pennsylvania Village in Flames—Indiana State Officers Mad—Declared Unconstitutional—The Amalgamated Convention, Etc.

Joseph Jefferson Taken Suddenly Ill.

NEW YORK, June 17.—A special to the Evening Sun from Fall River, Mass., says: Joseph Jefferson left New York on the steamboat Pilgrim Thursday afternoon on his way to Buzzard's bay. During the night he was taken quite ill, and a physician was hunted up.

Mr. Jefferson's condition had not improved yesterday morning, and it was said that he would remain on the boat all day and be removed last evening to the Mellen house, where he will remain until he recovers his strength. It was said that he was not dangerously ill, but very weak.

Contractor Dant in a Serious Condition.

WASHINGTON, June 17.—Contractor Dant, who was doing the work which resulted in the collapse of Ford's opera house, is in a serious condition, and it is feared that his mind will be affected by the disaster. Ever since the accident he has been a sick man, his malady attacking the brain rather than the body. His condition the past three or four days has been so serious that the doctor has prohibited his leaving the house and denied the presence of all save the members of his family. The report upon the street was that Mr. Dant had gone crazy.

A Pennsylvania Village in Flames.

SCRANTON, Pa., June 16.—Dundas village, in Susquehanna county, six miles from Carbondale, is on fire, and having no means of fighting the flames, the entire place is threatened with destruction. The fire started at 1 o'clock in James Slocum's house. The Methodist church adjoining and Slocum's house were destroyed and the wind carried the blazing embers to other buildings. Two stores and a dwelling have also been burned. A hose company from Carbondale has reached the village, but can render little assistance.

They Are Mad.

INDIANAPOLIS, Ind., June 17.—Indiana state officers are to a man indignant. None of them were present at the opening of the Indiana building at the World's fair Thursday, and they say it was because the commission snubbed them and issued them no invitations to attend the opening. The only state officer invited was Gov. Matthews.

A Very Unconstitutional Law.

INDIANAPOLIS, June 17.—The supreme court yesterday afternoon declared the law assessing fire insurance companies on their premiums for the benefit of relief funds for organized fire departments unconstitutional in half a dozen different respects. A great deal of money has been collected under the law.

Catch that Nigger.

NEW YORK, June 17.—Supt. Byrnes has sent out instructions for the arrest of Albert Young, a negro, 22 years of age, 5 feet 6 inches high, copper colored, who is wanted for the murder of the valet of Jockey Simms, in Westchester county, at an early hour yesterday morning.

The Amalgamated Convention.

PITTSBURGH, Pa., June 17.—At yesterday's session of the Amalgamated convention it was decide to hold the next annual meeting in Cleveland, O., on the third Tuesday in May, 1894. The convention will adjourn to-day.

GOV. ALTGELD INDIGNANT.

He Says the Sheriffs of Cook, Will and Dupage Counties Make False Statements.

SPRINGFIELD, Ill., June 17.—Gov. Altgeld sent a stirring message to the legislature yesterday in regard to the Lemont strike. After giving the gist of the telegrams received from the sheriffs of Cook, Will and Dupage counties, in regard to the trouble, the governor said he was astonished to learn that the telegrams sent by the sheriffs of these counties calling for troops were absolute misstatements of the facts. From all that he could learn about the threatened trouble over fourteen miles of territory, the sheriff of Cook county had but three deputies, the sheriff of Dupage county none, and the sheriff of Will five in the daytime and seventeen at night when they sent telegrams urging the calling out of troops.

"It was very apparent to me," says the governor, "after arriving there that had the sheriff made even moderate efforts to enforce the law and protect life and property by calling out special deputies they would have had no trouble at all."

In conclusion the governor says: "If the law does not already make the sheriff and his deputies liable for failing to make a proper effort to swear in special deputies, when it is necessary to protect life and property, then the law should at once be so amended as to hold them responsible.

Continued for Two Weeks.

SAN FRANCISCO, June 17.—The second trial of Wesley C. Rippey for the attempted murder of John W. Mackey was continued yesterday for two weeks.
